

Please join us for

# A Foraged Feast

We would like to share with you some of the joys of foraged foods. This year we initiated the first experiment in Community Supported Wild Foraging. Please come and enjoy some of the harvest, cooked by Chef Francisco Perez, accompanied by some local beverages. We will talk about this innovative new project and how you can become involved. This complimentary celebration of wild foods will take place on Thursday July 24<sup>th</sup>, 2003 from 5 to 7pm at Buzz's Yerba Maté Bar at 211 S. San Francisco Street (just north of Butler Ave.).

For more information about the event, please contact Patty West @ 523-2942, and for information about the Community Supported Wild Foraging project please see our website:
